

## 60 SHIPS HERE 'EAT HEAD OFF'

Dutch Coming to Urge the  
Lifting of U. S.  
Embargo

300,000 TONNAGE  
IS INVOLVED

Licenses Refused on Ground  
That Germany Might  
Be Aided

New York, July 28.—Pending the arrival in this country of J. B. van der Houven van Cordt and other members of a commission which has been appointed by the Dutch government to urge the lifting of the ban on exports to the Netherlands, at least 60 ships flying the Dutch flag are "eating their heads off" with demurrage charges in New York harbor. The situation has grown so serious that the ships would unload except for the prohibitive cost of lighterage just now.

The ships are loaded with flour, grain, oil, lard and bacon, as well as miscellaneous supplies, and the total tonnage is said to be more than 300,000. Just before the exports embargo act went into effect 11 Dutch freighters broke from the harbor without having obtained permission from the British admiralty and tried to make a run for it. They are now gathering in the harbor and demurrage charges in Halifax harbor, where they were taken by British cruisers.

The other ships of the Dutch fleet were moved from their piers and anchored in the Hudson river and the pending government action on their applications for export licenses. These licenses were refused on the ground that the supplies consigned to the Netherlands really were intended for Germany. Holland even offered to give up part of her tonnage for the transportation of foodstuffs to the Belgium relief commission, but the offer did not affect the government's attitude.

British and French agents have gathered incontrovertible evidence that the Dutch have been selling grain and other foodstuffs to Germany and that the large increase in her imports from the United States all goes to support an enemy army. Holland has received its price from the Germans, the state department says in effect; it must now pay the price itself.

There also are a number of ships from Norway, Denmark and Sweden in the harbor unable to sail because of the embargo. Their case is on all fours with that of the Dutch.

The United States is putting these countries on rationing virtually. Information at Washington is that they will be self-supporting for some time to come and that any import would enable them to sell to Germany. It is safe to say no food will go to them until the United States knows it is needed to prevent starvation.

**U. S. AGAINST LOAN TO MEXICO.**  
Frowns on Carranza's Efforts to Borrow \$500,000,000 Here.

Washington, D. C., July 28.—Efforts of Carranza agents to float a loan of \$150,000,000 in the United States will be frowned upon by the treasury department, it was learned here yesterday. It

## TO INCREASE YOUR STRENGTH

power and endurance you will find the new medicinal combination, Hood's Sarsaparilla before eating and Peptiron Pills after eating, to be remarkably, even wonderfully effective. There is nothing better for weakened, run-down conditions.

The economy of taking these two great medicines together is being proved every day by thousands who must be careful of their expenses. Price of each, \$1. All druggists.

C. I. Hood Co., Lowell, Mass.

is understood that Alfredo Carturegli, Carranza's financial agent, has conferred with New York bankers relative to a loan.

In view of the expected issue of a million dollars of short time American treasury certificates and the next Liberty loan for \$3,000,000,000 or more, treasury officials do not feel that the time is propitious for a Mexican loan in this country at this time. A direct government loan to Mexico is improbable.

## SENATORS VOTE TO CONSCRIPT ALIENS

The Military Committee Is to Recommend the Chamberlain Plan.

Washington, D. C., July 28.—The Senate military affairs committee voted unanimously yesterday to recommend to the Senate on Monday the immediate passage of the Chamberlain resolution permitting the conscription of aliens into the new national army.

The Senate is expected to adopt the resolution, which will affect 1,000,000 men.

Aliens who cannot become citizens of this country—Chinese and Japanese—are exempted by the resolution.

It would also exempt citizens of enemy countries and their allies and alien citizens of countries having anti-drafting treaties with the United States.

Other aliens who have resided in the United States one year without making any effort to become citizens will be liable to the draft under the resolution. If the Chamberlain resolution is side-tracked, a similar proposal by McCumber now under consideration in the foreign relations committee may be brought up.

## WAR OPPONENT ARRESTED FOR HIGH TREASON

Daniel H. Wallace, Who Fought in Europe, Deserted, and Organized the "League of Humanity," Is Held in Iowa.

Davenport, Iowa, July 28.—Daniel H. Wallace, one of the organizers in Chicago recently of the "League of Humanity," composed of men and women who styled themselves as conscientious objectors to war, was arrested here early yesterday by deputy United States marshals on a charge of high treason. He is to be taken to Ottumwa for a hearing.

Wallace, who is author of "Shanghaied into War," according to his own statement and that of fellow members of the "League of Humanity," is a deserter from the British army. It is alleged by an official of the league that the British government has set a price upon Wallace's head. Wallace claims to have been through many of the most important battles on the western front in Europe, deserting after the battle of Neuve Chapelle. He claims also to have been a member of the Texas Rangers, a sergeant in the Coldstream Guards, and to have more recently belonged to the Eighth Australian Light Horse. He has been active in work against war since coming to America and has delivered speeches and written books against it.

### Prize Fighter May Die.

Fergus Falls, Minn., July 28.—Al Palze, the prize fighter, was shot and perhaps fatally injured Thursday night by his father when the latter attacked the fighter's mother.

## RUSHING THE FOOD BILL

Conferees Are Near to an  
Agreement on the  
Measure

HOPE NEXT WEEK TO  
SEND TO PRESIDENT

The Neutrals Export to Germany  
Despite Embargo—  
No Diminution Shown

Washington, D. C., July 28.—Work on the food control bill was continued yesterday by the conference committee, while both Senate and House were in recess awaiting the conferees' report. An agreement may be reached soon, according to the conferees, most of whom, however, contented themselves with the prediction that there would be prompt action.

An overnight development which gave hope of having the bill perfected and in President Wilson's hands next week was the action of House Republicans, meeting informally, in agreeing to abandon the proposed fight, led by Majority Leader Mann, for the creation of a joint congressional committee on war expenditures, which is opposed by the president. The Senate, however, may yet fight for its proposal.

The conferees are pledged not to discuss their deliberations, but it was believed that they still were considering yesterday the proposal for a war expenditures committee and for a food control board of three members, the principal points in dispute.

## 10 CENTS A DAY ENOUGH FOR FOOD

So Declares Professor, Who Says 25  
Cents Means Luxury.

Cambridge, Mass., July 28.—Twenty-five cents a day spent for food is luxurious living, according to Prof. Lawrence J. Henderson of Harvard. The professor says he finds that 10 cents a day is enough. In a lecture at the university Thursday he recommended corn bread, white bread, dates and cheap but nourishing meats.

"The high cost of living can be cut only through the kitchen," he said. "Our cooks are far from economical, the housekeeper of to-day has lost the art of buying, and nearly 25 per cent of food matter is wasted in the kitchen."

"Any person who spends more than 24 cents a day on food, can be said to be living in luxury."

"People by buying the right kind of food should be able to live on 10 or 12 cents a day. Good buying is essential. The thought that one must have eggs for breakfast every morning and meat at dinner is unnecessary."

## KERENSKY SEVERELY WOUNDED?

Russian Premier Injured in Arm Near  
Brezany, Budapest Newspaper Reports—Tried to Stop Slaughter of Traitors.

Geneva, July 28.—A despatch to the Budapest Aest ascribes to Russian prisoners the statement that M. Kerensky, the Russian premier and minister of war and marine, was severely wounded in the arm near Brezany. A Russian infantry regiment, says the despatch, refused to fight and retreated, whereupon the Russian artillery turned their guns upon it. M. Kerensky in an automobile dashed in between the two forces and succeeded in stopping the slaughter, but was himself wounded.

## FIGHTING RENEWED IN CHINESE PROVINCE

The Capital of Sze-Chuen Is in Flames—  
People Fleeing in  
Panic.

Shanghai, China, July 28.—A correspondent of the North China Daily News reports that serious fighting has broken out again at Cheng-Tu, capital of the province of Sze-Chuen, where Kwei-Chow and Yun-Nan troops have resumed their contest for mastery of the province. The city is in flames and the people are fleeing in panic.

### EXAMINE COURT PLASTER.

Samples Put Out By German Firm  
Turned Over to Department of Justice.

Washington, July 28.—Samples of court plaster distributed in Brooklyn, N. Y., by a German paint concern were turned over to the department of justice yesterday by Secretary Redfield. Charges have been made that Germans were spreading tetanus and other diseases in the United States through the distribution of surgical dressings. The department of justice is making chemical analysis of court plasters sent to Washington from various parts of the country.

## AUSTRALIA PLANS TO HAVE WASH- INGTON ENVOY

Resolution Provides for Appointment of  
a High Commis-  
sioner.

Melbourne, Australia, July 28.—A resolution was moved yesterday in the Commonwealth Senate for the appointment of an Australian high commissioner in Washington.

## ROOSEVELT SNUBS MAYOR THOMPSON

He Refuses to Speak at a Meeting of  
Chicago Men  
Does.

Pittsburg, July 28.—Col. Theodore Roosevelt was on his way home yesterday after a brief but satisfying visit to this city, in the course of which he snubbed William Hale Thompson, Chicago's mayor, and condemned "paw-broker patriotism."

The ex-president's visit to Pittsburg was occasioned by the annual convention of the Loyal Order of Moose, of which the colonel is an honorary member. He delivered the principal speech at the convention Thursday and was the feature of the parade through the city's streets Thursday night.

In his speech Col. Roosevelt assailed the preparations which the government has made for the war and declared for universal military training in the United States after the war as a security against a repetition of unpreparedness such as handicapped the nation in the present crisis. He described the country's unpreparedness as a "miracle of national inefficiency."

Mayor Thompson, whose activities in Chicago have smacked of pro-Germanism, was also a guest at the convention. He sought to see Col. Roosevelt, but was denied the privilege of an interview. Furthermore Col. Roosevelt informed the convention managers that if Thompson was allowed to talk at the big open air meeting he would not. Needless to say the colonel spoke at the meeting and Mayor Thompson did not.

### Sporting Notes.

Several former Harvard athletes now in the coast guard in Boston harbor have formed a baseball team and are to play their first tournament to-morrow against a team picked from the sailors on board the battleship Virginia. Some of the Harvard men are: Tom Enright, Babe Felton, Bill Hickey, Lancaster, Phinny, Caley, Jackson, Reed and Ted Condon.

Dave Morey, the pitcher of the Oak Bluffs team, shut out the Wollaston team Wednesday without allowing a hit, a run or a base on balls.

See John J. Lane of the Boston Red Sox, plans to join the reserve officers' training camp at Plattsburg the latter part of next month, having passed a physical examination at Fort Banks, but he will remain with the club until he is called.

Thursday's game made the 11th to be won by the Red Sox from St. Louis out of 15 engagements this season.

Hornsbay had much to do with winning Thursday's game between Boston and St. Louis by driving in one run and securing the other himself on a Cruise two-bagger.

At the Boston-St. Louis game Thursday a baseball autographed by President Wilson was sold at auction to Clarence Howard, president of the Commonwealth Steel company, for \$150, the game being a benefit for the 5th Missouri regiment and netting \$5,000 for the soldiers.

The Cincinnati Reds are still continuing their rush for the top position in the National league and are causing the fans in Cincinnati to see nothing but the league hunting.

In Thursday's game between Boston and St. Louis, Doak, the St. Louis pitcher, held the Braves to two hits, besides preventing one of them from reaching third.

The St. Louis Browns have purchased from the Ohio State league Pete Moore, who is a pitcher.

Cobb made things lively in the first game of Thursday's double-header between Detroit and Philadelphia, when he secured four hits out of four times at bat, including a double and a triple, while he got one hit out of four trips to the plate in the second encounter.

The fielding of Peckinpough, the New York shortstop, featured Thursday's game between New York and Chicago, he having two putouts and seven assists to his credit.

Hoblitzell, the Red Sox first sacker, had his "day" Thursday in the second engagement of the double-header between Boston and St. Louis, when he secured three hits out of three times at bat. Pratt, the St. Louis second baseman, also had three hits out of three times at bat to his credit in the same encounter.

St. Louis made seven errors in the first engagement at Fenway park Thursday, this being the record to be made in that park, so far as big league playing is concerned.

## NATIONAL LEAGUE

### Yesterday's Results.

At Pittsburg—Pittsburg 5, Brooklyn 1.  
At St. Louis—St. Louis 4, Boston 3.  
At Chicago—New York 3, Chicago 1.  
At Cincinnati—Cincinnati 6, Philadelphia 4.

## LOST MARKETS ROUSE JUNKERS

Begin to Realize Big World  
Trade Has Van-  
ished

WERE DECEIVED BY  
THE WAR LORDS

Business Men Had Expected  
to Profit by Speedy  
Conquest

Washington, D. C., July 28.—Growing realization of the tremendous and in many respects permanent trade losses that have been incurred by Germany as a result of the war is beginning to shake the confidence of the Junkers, according to information reaching the American government through indirect channels.

Though the German government, these advisers state, is doing its utmost to keep the figures from the general public, yet enough has leaked out to the people through recent debates in the Reichstag to create a demand for the facts.

In supporting the militarists in their gigantic preparations for "Der Tag," the Junkers and the business and commercial interests of Germany generally had been led to believe that the power of the Prussian war machine was so invincible as to completely overcome all obstacles and quickly bring to a successful conclusion Germany's purpose to control the markets of the world.

This was the coveted "place in the sun," as the commercial magnates of Germany saw it, and it was to gain this place that they supported the militarists generously in money and in influence.

In place of what the Prussian war lords had promised them would be theirs in record time these men of business in Germany, who for long years previously had successfully, though slowly, built up German markets in all parts of the globe, are now beginning to foresee the day when the war will end with German accounts completely wiped off the world's trade ledgers.

It is not so much the "trade war after the war," so recklessly promised by the allies, that is occupying the immediate attention of the burghers of Berlin, according to the advisers received, as the sickening realization that German trade has already been wiped out in three-fourths of the world and that the elaborate and scientific machinery of commerce they had built up has been obliterated.

The reports that have been received indicate that when once the full significance of what has occurred is borne home to the German people they will appreciate as never before the falseness of the gods they have been following.

Before the European war started the foreign trade of Germany amounted to more than \$4,000,000,000 a year. Her exports were second only to those of Great Britain and were on a par with those of the United States.

Her merchant marine was unrivaled only by that of Great Britain, and her ships plied the seven seas and traded at every civilized port. German commercial efficiency had proved more than a match for British salesmanship and had outdistanced other competitors. German agencies and German banks were located in every country where it was possible for such instruments to build up trade.

All this has been wiped out by the war. Many of the finest ships in the German merchant marine are now in the hands of her foes and dying the flags of enemy nationalities.

With each new enemy acquired, trade ties laboriously woven have been summarily to flume in many corners of the past have become bitter foes, and much of the bitterness will remain for a generation at least to thwart the efforts of Germany later to repair what she has lost.

It will be decades at least, many Germans themselves are beginning to realize, before German traders will have the temerity to flume in many corners of the world the slogan "Made in Germany." In a single instance, that of the United States, Germany uprooted a trade that before the war was worth to her merchants approximately \$200,000,000 a year in sales.

Officials who have compared these confidential advices with recent developments in Germany are able to trace a connection between what is declared to be this growing appreciation of Germany's enormous trade losses and the defection of parties in the Reichstag, such as the conservative Center party, from the government.

While for the time being officials here recognize that the militarists are in the saddle in Berlin, they are beginning to wonder how long they could survive a popular understanding of the terrible price that Germany has paid.

### NO FEAR OF EMBARGO.

Neutrals Export Just as Much to Germany Despite American Ban.

Washington, D. C., July 28.—Reports reaching here indicate that the American government's refusal to grant any export licenses at present for goods destined for the north European neutrals has resulted in no retrenchment of trade operations between those countries and Germany. Exports to Germany are going forward, the reports say, in the same quantity as before the embargo was declared here.

### BRITISH MINE STRIKE SPREADS.

More Than 11,000 Men Have Now Refused to Work.

London, July 28.—The miners' strike yesterday spread from West Monmouth to other districts. More than 11,000 men are now out.

## BIG INCREASE IN BRITISH TILLED LAND

Add 347,000 Acres to Total—Private  
Growers Not Included in  
This Amount.

London, July 28.—In England and Wales the increased acreage in wheat, barley, oats and potatoes this year is 347,000 acres, or about six per cent, according to the official returns published yesterday. These figures do not include any allowance for the enormous efforts made by small growers, the results whereof it is impossible to collect accurate figures.

The official estimate is that "the area of small cultivation has been quadrupled and this estimate probably has been below the mark, as the number of small vegetable gardens in England and Wales has been increased by more than half a million, and the displacement of flowers by vegetables has been general in gardens throughout the country."

The figures published yesterday constitute the first authoritative evidence of the tremendous agricultural efforts which have been made throughout Great Britain.

Unofficial estimates had placed the increased acreage at about 300,000 acres, and in view of climatic conditions and labor shortage, it would have been surprising if these estimates had proved over-optimistic. That these estimates were exceeded by 47,000 was due largely to the assistance given by the war office in lending soldiers for work on the land. Without such help, it would have been impossible to avert a decrease from that of 1916 of at least 200,000 acres.

## ENTENTE TO TAKE TROOPS FROM AN- CIENT GREECE

Also to Withdraw Forces from Thessaly  
and Epirus—It Was Decided  
at Conference.

Paris, July 28.—The entente powers decided at the conference Thursday to withdraw their troops as soon as possible from ancient Greece, Thessaly and Epirus.

### NO MORE FOOLING.

American Soldiers Shot on by Mexicans  
Will Shoot to Kill.

El Paso, July 28.—General William Bell, jr., United States military district commander here, has informed Mexican Consul Bravo that United States soldiers on patrol duty would return from across the border. The soldiers, Gen. Bell added, had been ordered to shoot to kill. General Bell's statement was in reply to a protest, lodged by the Mexican consul, alleging that a Mexican soldier on the night of July 7, was mortally wounded.

General Bell informed the consul that he had found that the Mexican soldiers fired first.

### Chariot and the Thereof.

Little Benny was looking at a picture of Elijah going to heaven in a chariot of fire. Pointing to the halo about the prophet's head, Benny exclaimed: "See, mamma, he's carrying a nextra tire."

To Remove Dust from Velvet or Plush—Every one knows how hard it is to remove lint or an accumulation of dust from velvet or plush goods. An improvement over the ordinary damp-cloth or soft-cloth or soft-brush method is to sprinkle salt over the goods and remove with a stiff brush. The dust sticks to the salt and instantly disappears.

## ARRESTED FOR SPREAD- ING RUMOR OF DISASTER

St. Louis Medical Student Is Alleged to  
Have Told False Story About  
Hospital Unit.

St. Louis, July 28.—Louis Frummen, a medical student, was arrested here on Thursday by federal agents on the charge that he had stated he had received a letter from France saying that a member of the Washington university hospital unit (Red Cross base hospital unit No. 21) had been killed and another member of the unit had been injured. Bail was fixed at \$1,000. The arrest was made under the espionage act.

Officers of the department of justice issued a warning against the spreading of rumors of disaster to the American expeditionary force. The circulation of such false rumors, it is stated, is one means of giving aid and comfort to the enemy. Henceforth, the statement says, the department of justice intends vigorously to enforce the law against those who thus harm the country.
